

To whom It May Concern! The Way the XM is set up is working great for me, I spend Around three weeks a month out on the road hauling americas good to and fro, I get all my info off of XM Radio as far as weather, traffic, so I can plan ahead for the situation. I listion to My XM not only in my tractor but also in my office, at home, and in my pick up!!!! AM and FM as far as I am concerned Can not hold a candle to XM for the quality of sound and the service!!! Now my advice to them is like we say out here on the big road is IF YOU CAN'T RUN WITH THE BIG DOGS GET YOUR ASS BACK ON THE PORCH!!!!!!!

Thank YOU
Chuck Van Norman
